

RELEASE NOTES

Rtg300 Interface Library v1.23

These release notes contain important information about the new software and how it will affect the performance of systems in which it is installed. The notes include information about enhancements, adaptive changes, and corrections to known problems. Please read this documentation carefully.

Compatibility:

CDW300 – v2.30
GP300 FW – RMS1780-00-J

Documentation:

Rtg300 Interface Library User's Guide v2.03

Installation:

See Section 1.3, Rtg300 Interface Library User's Guide v2.03

1. Modified RtgInIt to fix a bug that affected CDW300 startup.
2. Simplified and documented preprocessor definitions that control conditional compilation of code for debugging. Documentation consists of comments in the Rtg300 source files.
3. Removed some undocumented subroutines and/or the statements that exported them to applications. Files RtgExpt.h and RtgPub.h were modified for this purpose.
